

Zainul Arkaan Al Insi

Full-Stack & Mobile Developer

zainaril13@gmail.com | +62 852 8254 0833 | Bekasi, Indonesia | github.com/ZainulArkaanAlinsi | linkedin.com/in/zainul-arkaan-3bb51731a

PROFILE

Full-stack and mobile developer currently in IDN Boarding School's Software Engineering program. I build fast, accessible, well-architected products across Next.js, Laravel, and Flutter — from polished marketing sites to production-grade dashboards and cross-platform mobile apps with real-time backends.

CORE SKILLS

Frontend: Next.js · React · TypeScript · Tailwind CSS

Backend: Laravel · PHP · Node.js · REST APIs

Mobile & Cloud: Flutter · Dart · Firebase · Supabase

Tools: Git · Figma · Realtime DB · Geofencing

EXPERIENCE

Workshop Instructor 2024 — 2025

Ar Rasyad & Al Kahfi School

Designed and taught a hands-on programming curriculum (HTML, CSS, JavaScript) for junior-high students, including live coding demos and small group projects.

Full-Stack Developer 2025

Independent Projects

Shipped multiple production-style projects across Next.js, Laravel, and Flutter — from admin dashboards to mobile attendance apps with offline sync.

Mobile Engineering 2025

Self-directed Learning

Completed a certified Flutter & Firebase track, re-implementing ride-sharing patterns (inDrive / Uber clones) with real-time location, auth, and payment flows.

SELECTED PROJECTS

Absensi Karyawan JNT Martapura

Flutter · Firebase · Geofencing · REST API

Production attendance system for the J&T Martapura branch: a Flutter app for staff check-in with geofencing and biometric verification, plus an admin dashboard for live monitoring and reporting.

Booking App

Flutter · Firebase · Realtime DB

Cross-platform booking and reservation app with real-time availability, scheduling, and a clean flow from selection to confirmation.

E-libro

Flutter · Firebase · REST API

Digital library platform to browse, search, and read e-books with categorized collections and a focused reading experience.

Qur'an App

Flutter · REST API · Audio

Qur'an companion with full surah text, audio recitation, translations, and bookmarking — built on an open Qur'an REST API.

EDUCATION

IDN Boarding School 2023 — Present

Software Engineering Specialist Program

Intensive program focused on full-stack development, mobile engineering, and product thinking.

CERTIFICATIONS

Fullstack Web Development — Flexible Kickstart Journal (2025)

Flutter & Firebase Developer — Certified Program (2025)

Belajar Dasar Pemrograman Web — Dicoding Indonesia (2025)

Belajar Membuat Front-End Web — Dicoding Indonesia (2024)

LANGUAGES

Indonesian (Native) · Arabic (Fluent) · English (Intermediate)
