PROFILE

Full-stack developer who builds web and mobile applications end to end, from database design and REST APIs to the interfaces people use every day. Works mainly with Laravel, Next.js, and Flutter. Currently a software development intern at an ISO/IEC 17025-accredited calibration laboratory, building production backends, automated tests, and CI/CD pipelines, while also handling client projects such as a POS system and an ERP/WMS integrated with Shopee. Maintains 44 public repositories on GitHub.

EXPERIENCE

Software Development Intern · PT Sistem Dirgantara Inovasi Teknologi (PT Sidik) 2026 – Present
Calibration laboratory accredited under SNI ISO/IEC 17025:2017

- Built the backend of a calibration-data processing system and verified its output against the laboratory's master data, with all figures matching.
- Developing **CertiCal**, a Laravel API with a Filament admin panel and a Flutter (Riverpod) mobile app that manages calibration records, calculates measurement uncertainty (GUM method), applies ILAC-G8 decision rules, and generates ISO/IEC 17025-compliant PDF certificates.
- Implemented role-based access (admin, technician, viewer) with Laravel Sanctum, real-time updates with Laravel Reverb, and AES-256 encrypted QR codes on certificates.
- Set up PHPUnit testing on SQLite and MySQL and a GitHub Actions pipeline that deploys to Render only after all tests pass.

Freelance Full-Stack Developer · Client Projects 2026 – Present

- ERP & WMS System** (in progress, with a partner developer): designing the business flow and building an ERP and warehouse management system integrated with Shopee for an online seller.
- KasirOne POS** (in development): web-based cashier system for a retail shop with barcode scanning, QRIS/cash/card payments, low-stock alerts, and weekly/monthly revenue reports.

Programming Workshop Instructor · Ar Rasyid School & Al Kahfi School 2024 – 2025

- Taught hands-on HTML, CSS, and JavaScript to 50+ junior students, guiding them from a simple wireframe to a published website.

PROJECTS

JNE Martapura Employee Attendance System | Flutter, Next.js, TypeScript, Firebase 2026
Android app where staff clock in with face recognition and GPS verification, plus a live Next.js HR dashboard on Firestore and Cloud Functions. Built in a team of three.

MyQuran – Qur'an Reader App | Flutter, Dart, REST API 2025 – Present
Qur'an reader with audio recitation, search, and bookmarks; being redesigned for a free Google Play release.

E-Libro – Library Reading App | Flutter, Laravel, REST API 2025
Reading-room app to register, browse the catalogue, borrow books, and read them in a built-in reader.

News App | Flutter, Dart, REST API 2025
News reader with country-filtered headlines, search, and saved articles.

TECHNICAL SKILLS

Languages	PHP, TypeScript, JavaScript, Dart, Java, SQL, HTML, CSS
Backend	Laravel, Filament, Laravel Sanctum, Laravel Reverb, Node.js, REST API
Frontend & Mobile	Next.js, React, Vue, Tailwind CSS, Alpine.js, Flutter, Riverpod
Database	MySQL, SQLite, Firebase / Firestore
Tools & DevOps	Git & GitHub, GitHub Actions (CI/CD), PHPUnit, Vercel, Render, Postman, Figma

EDUCATION

SMK IDN Bogor · Software and Game Development (PPLG) 2024 – 2027

CERTIFICATES

- Flexible Kickstart Journey (2025):** Fullstack Web Development (grade: Excellent); Flutter & Firebase Mobile Developer
- Dicoding Indonesia:** Web Programming Fundamentals (2025); Front-End Web Development (2024)
